### **NEW QUESTION: 1**

注：この質問は、同じシナリオを提示する一連の質問の一部です。シリーズの各質問には、述べられた目標を達成する可能性のある独自の解決策が含まれています。一部の質問セットには複数の正しい解決策がある場合がありますが、他の質問セットには正しい解決策がない場合があります。このセクションの質問に回答した後は、その質問に戻ることはできません。その結果、これらの質問はレビュー画面に表示されません。

会社には、オンプレミスのActive Directoryドメインサービス (AD

DS) ドメインと、確立されたAzure Active Directory (Azure AD) 環境があります。

あなたの会社は、ユーザーが企業ネットワークに接続されている企業のデスクトップにいるときに、クラウドアプリに自動的にサインインすることを望んでいます。

会社のユーザーに対してシングルサインオン (SSO) を有効にする必要があります。

解決策：パスワードハッシュ同期を使用するようにAzure AD

Connectサーバーをインストールして構成し、[シングルサインオンを有効にする]オプションを選択します。

ソリューションは目標を達成していますか？

A. はい

B. いいえ

**Answer: A**

Explanation:

Explanation

Azure Active Directory Seamless Single Sign-On (Azure AD Seamless SSO) automatically signs users in when they are on their corporate devices connected to your corporate network. When enabled, users don't need to type in their passwords to sign in to Azure AD, and usually, even type in their usernames. This feature provides your users easy access to your cloud-based applications without needing any additional on-premises components. Seamless SSO can be combined with either the Password Hash Synchronization or Pass-through Authentication sign-in methods.

## **NEW QUESTION: 2**

Click to expand each objective. To connect to the Azure portal, type <https://portal.azure.com> in the browser address bar.

When you are finished performing all the tasks, click the 'Next' button.

Note that you cannot return to the lab once you click the 'Next' button. Scoring occurs in the background while you complete the rest of the exam.

Overview

The following section of the exam is a lab. In this section, you will perform a set of tasks in a live environment. While most functionality will be available to you as it would be in a live environment, some functionality (e.g., copy and paste, ability to navigate to external websites) will not be possible by design.

Scoring is based on the outcome of performing the tasks stated in the lab. In other words, it doesn't matter how you accomplish the task, if you successfully perform it, you will earn credit for that task.

Labs are not timed separately, and this exam may have more than one lab that you must complete. You can use as much time as you would like to complete each lab. But, you should manage your time appropriately to ensure that you are able to complete the lab(s) and all other sections of the exam in the time provided.

Please note that once you submit your work by clicking the Next button within a lab, you will NOT be able to return to the lab.

To start the lab

You may start the lab by clicking the Next button.

You plan to store media files in the rg1lod7523691n1 storage account.

You need to configure the storage account to store the media files. The solution must ensure that only users who have access keys can download the media files and that the files are accessible only over HTTPS.

What should you do from Azure portal?

**Answer:**

Explanation:

See solution below.

Explanation

We should create an Azure file share.

Step 1: In the Azure portal, select All services. In the list of resources, type Storage Accounts. As you begin typing, the list filters based on your input. Select Storage Accounts.

On the Storage Accounts window that appears.

Step 2: Locate the rg1lod7523691n1 storage account.

Step 3: On the storage account page, in the Services section, select Files.

Step 4: On the menu at the top of the File service page, click + File share. The New file share page drops down.

Step 5: In Name type myshare. Click OK to create the Azure file share.

### **NEW QUESTION: 3**

An internal auditor discovered evidence of a fraud earned out by an employee who worked in the accounting department. The auditor concluded that the fraud had been possible because of unsatisfactory segregation of duties in the department.

Poor segregation between which of the following duties would provide the best opportunity for this type of fraud to occur?

- A. Receiving payments from customers, and recording them in the ledger
- B. Issuing both sales invoices and purchase invoices.
- C. Issuing sales invoices, and recording payments to suppliers in the ledger.
- D. Receiving purchase invoices, and banking payments from customers.

**Answer: B**
